DETAILED ACTION

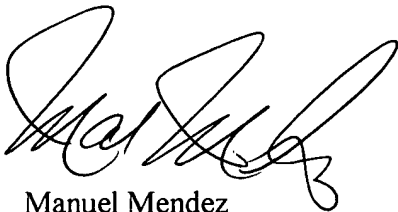

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

1. **Claims 19 and 23-28** are rejected under 35 U.S.C. 102(b) as being anticipated by Barbut, et al., U.S. Patent Number 5,769,816. The referenced patent discloses the insertion of the distal end of a cannula into an aorta, inserting a filter through a lumen of the cannula and past the distal end of the cannula, deploying the filter; and expanding an occluder associated with the distal end of the cannula. (See figure 9)
